

FROM PASSENGER TO TRAINER TO BE

My journey from a 16 years passenger to a trainer to be ..

Since I was a teenager 16 years ago... I've never missed a chance to ride a Harley as a passenger specially in winters..

I've always been captured by the experience of exploring cities, roads and nature .. over the back seat of a Harley..

and as long as I did that I've never thought of grabbing a bike as a rider .. never!! I've always believed that I am physically incapable of holding the leach of that monstrous heavyweight machine .. It's until last winter when I lost my partner and I found it hard to spend the winter without riding a motorbike then I decided and said it out loud "ill be the first Harley riding lady that will ride in the streets of Riyadh

H.O.G. RIYADH CHAPTER

**H.O.G. Article
by: Roaa AbdulAziz**

And later on when I visited the Harley Davidson's dealership for garments shopping, I expressed to the salesman there how interested I am in Harley riding, he told me about Riyadh Chapter Ladies of Harley meetings and in a week I enrolled in my first meeting with the hog in their club.. it was one of the most welcoming meeting I've ever been in and enthusiasm was in the air ..

next meeting I brought 3 of my girlfriends over because of how much it felt professional and welcoming over there .. they've introduced us to the great community of Harley owners group that looked like a brotherhood community to me .. and they've encouraged me to proceed my dream and they made it sound possible and I saw it in front of my eyes.. It became clear to me that I don't just want to be a rider of a motorbike I rather be a trainer for more girls to achieve their dreams ..
